Professional Summary

Final-year **Computer Science and Engineering** student with academic experience in **MERN Stack**, **LLM orchestration (LangChain/ LangGraph)**, and relational databases. Skilled in full-stack technologies including **React**, **Tailwind CSS**, **Docker**, **Git**, and API testing with **Postman**. Good understanding of **DSA**, **OOPS**, **DBMS**, and modern software practices. Actively seeking opportunities to apply technical skills, learn from real-world projects, and grow as a backend engineer.

Education

2022–2026 **B.Tech in Computer Science and Engineering**, Vignan's Foundation for Science, Technology & Research, Guntur
2019–2021 **Intermediate (NEB)**, Kalika Campus, Butwal
2018–2019 **Matriculation (NEB)**, New Academy Boarding School, SainaMaina

Technical Skills

Languages: Java, Python, SQL, HTML, CSS, JavaScript

Frameworks & Tools: MERN, LangChain, MCP Server, RAG, Tailwind CSS, Postman, Git, GitHub, Docker & Kubernetes

Core Areas: Data Structures & Algorithms, Object-Oriented Programming, Networking, DBMS, Cloud Computing(AWS)

Projects

Digital Complaint & Feedback Portal: Built a MERN-based platform with JWT auth, Cloudinary file uploads, complaint tracking, and an admin dashboard. Deployed on **Render** with data stored in **MongoDB Atlas**. Designed a responsive UI using Tailwind CSS.

Exam Paper Generator: AI-based exam paper generator built with **FastAPI + React**, using **Gemini** and **LangChain** for automated question creation and semantic filtering. Supports PDF/Word/PPT export, JWT auth, role-based access and cloud storage.

Enhanced Personality Trait Prediction Using Hybrid Feature Selection Method: Built ML models to predict personality traits from Twitter text using TF, TF-IDF, and LSTM features combined with boosting algorithms. CatBoost achieved the best accuracy of **80%**, outperforming the base research benchmark. Contributed to data preprocessing, ensemble modeling, and evaluation.

Achievements & Certifications

- Secured **2nd Prize** in a **Code Hunt** for decoding the code to get the clue.
- Completed NPTEL course “**Essential Mathematics for Machine Learning**” (Jul–Oct 2024).
- Completed NPTEL course on **Leadership and Team Effectiveness** with a final score of 70%.

Field of Interest

Backend Development, Full Stack Development, Agentic AI, Cloud Systems

Hobbies & Languages

Hobbies: Reading Books, Solving Rubik's Cubes, Watching Sci-Fi Movies

Languages: English, Hindi, Nepali
